STPT/EXIM/2012-13/

11.03.2013

Circular

It was a long pending request from the industry that the authorized employees of IT/ITES units are permitted to work from home due to security concerns of female employees working in odd hours.

It has been clarified that Para 6.7.4 Vol.1 and Para 6.7.2 of Hand Book Procedures which inter – alia states that access of facilities installed in STP/EHTP through data com links and take out duty free Laptop, Computer etc., from the premises includes the meaning of working from home.

The same proposal to allow authorized employees of EOUs/STP units to work from home was considered and approved by Inter- Ministerial Standing Committee (IMSC) in its meeting held on 29th April 2009. However the industry is requested to ensure that resultant exports shall take place only from the premises of the company.
